Drawings

1. Figs. 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. It would appear that claim 18 should depend from claim 12, not claim 8.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 3-5 and 12-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Aoyama (USPN 4,716,307).

Art Unit: 2816

Fig. 2 discloses a regulator 1/3/4 and an on-chip module 5. The supply current drawn through 4 is proportional to the operating current of 5 as recited in claim 1.

Component 1 draws a fixed current. Component 4 draws a variable current as recited in claim 3.

Most of the current is supplied by component 4 as recited in claim 4.

Component 1 regulates the supply voltage and component 4 supplies the operational current as recited in claim 5.

Claims 12-14 are anticipated for the reasons above.

Conclusion

5. Claims 2, 6-11 and 15-20 are objected to as being dependent upon a rejected base claim, but may be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 21 and 22 appear to be allowable.
